TESTIMONIAL QUOTES

Quotes are in response to Choice Environmental's Compressed Natural Gas refuse trucks

John Seiler – Mayor of Fort Lauderdale, Florida

“We’ve been talking about how to make it [Fort Lauderdale] a better place to live, work, play and raise a family. Well, this does it right here.”

Kristin Jacobs – Broward County (Florida) Commissioner

“Broward County, as a county leads, by having the largest alternative fuel vehicle fleet in the South East United States - and we’re pretty proud of that marker. But nothing really helps move us forward unless you have companies and cities that are willing to go push us to the next level. And that’s what Choice has done today.”

Patricia Asseff – City of Hollywood, Florida Commissioner

“This is a great new industry for the state of Florida. Instead of tourism, let’s think energy. We’re looking to get the next CNG station here in Hollywood. We’re looking to get our trucks to say Clean Energy.”

Michael Pizzi – Mayor, City of Miami Lakes, Florida

“I’m jealous that you guys [Broward County] have all of these beautiful clean and green, fantastic trucks helping the people in Broward. We’ve got to get some of these trucks in Dade County. People use the word ‘green’ frequently and a lot of people aren’t sure what it means. If you want to know what the word ‘green’ means, it’s what Pompano, and Ft. Lauderdale, and Choice, and Broward are doing today. If you want to know what environmentally friendly, controlling emissions means, it means actually doing it. I’m very proud that. Choice Environmental Services: they’re walking the walk in terms of climate control. I’m hoping we’re following your lead Mayor [of Fort Lauderdale], and that we get some of these trucks in Dade County.”
